

## Introduction to Little House (小房子)

Little House is a compilation of a few mantras and sutras:

- 27 Great Compassion Mantra
- 49 Heart Sutra
- 84 Amitabha Pure Land Rebirth Mantra
- 87 Sapta Atitabuddha Karasaniya Dharani

It looks like a front view of a house with a slanting roof.

Little House is especially used to transfer merits to the spirits and to those deceased. There are 2 types of illnesses, firstly, is physical illness, and secondly is spiritual illness. Spiritual illness cannot be cured by doctors. Spirits are commonly known as "ghost" on a human body. On a living person, spirits are normally deceased relatives or aborted/miscarried children, good/close friends, or people who has conflicts with him/her, or spirits in the house. If spirits stay in a persons' body for a long time, it will result in a person's physical illness, has bad temper, experience ill fortune, business or difficulty in learning.

Little House in spiritual world is equivalent to money and energy.

Sapta Atitabuddha Karasaniya Dharani is extremely valuable in the spiritual world. The power of Heart Sutra is even more powerful than Sapta Atitabuddha Karasaniya Dharani. Little House uses this compilation of mantras and sutras to seek the help of The Great Merciful Guan Yin Bodhisattva to transfer merits to the spirits.

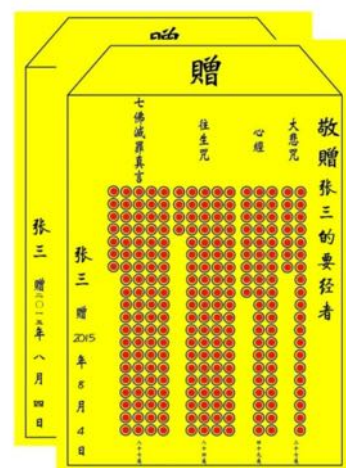

Little House is essentially an effective Buddha treasure that The Great Merciful Guan Yin Bodhisattva has granted us. Through Little House, spirits/our karmic creditors are able to receive merits, once our karmic debts are paid-up, our karmic creditors will leave us and we will be spared from illness, sufferings and obstacles.

## Important Notes

There is a valid law that governs the spiritual realm. Karmic creditors who come to us can be anyone related to us in the past life and current life as they will not look us up if there is no relation. Hence, if there is an opportunity for us to clear our debts, WHY NOT?

We will definitely feel good and much lighter after clearing our karmic debts. If we had dreams about our karmic creditors or our loved ones who has deceased, requesting us to send mantras to them, we have to patiently and meticulously chant the Little House to them. (People who have heavier karma may, at times feel stressed or burdened, tired, and unable to manage their chanting. They must persist and chant seriously as after they complete transferring merits with Little House, their situation will also improve.)

When chanting Little House, we must chant with a heart of gratitude. Chanting Little House on behalf of others is a good deed, at the same time we will also receive blessing also. When we chant for ourselves, it will help eradicate our negative karmas, hence we should not feel that it is an "inconvenience", we should be willing to offer our effort and time to do it.
